

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

We here at the Herald join all of the other Piper fans in wishing Coach Bobby King and his Piper basketball team good luck tonight in their game with Merkel for the district title.

Received the following letter from Patti Murphree, a student at West Texas State University and a physical education major.

"A young person does not realize how newsy a newspaper can be until they go off to college and get away from all the local action.

"I noticed Peggie Bond's letter to the editor in last week's paper. It's really reassuring to me to know that someone else is concerned about the youth of Hamlin.

"I realize the dilemma Hamlin is facing with the doctors' terminations and I am sure it is hard for you to think about much other than that problem. I just wanted to thank Peggie and those who think like her for her concern about the youth. To me, the youth of Hamlin are also facing a dilemma.

"Being a youth myself, it is quite evident that I cannot be much help with the future of the hospital, but I am willing and quite concerned with a less serious, but just as important problem — our youth.

"Sounds to me like some sort of planned recreation for idle students during the summer months would be a great beginning. **WHAT DO YOU THINK?**

"Sincerely yours,
"Patti Murphree"

Since I have been trying for a number of years to get some kind of summer recreation program going in Hamlin I am in full agreement with both Peggie and Patti.

Since Patti is a physical education major and has had experience with a Fort Worth Summer Recreational Program, maybe she is just what we need to get something started.

But of course, we have to find some organization willing to sponsor such a program and this has always been our problem. In some cities the school sponsors the program, in some it is the city and in others it is some local civic organization.

Through the volunteer efforts of Coach Deane Wright we had a limited program last summer, but this is too much to ask of any one person. We should not expect someone to shoulder our responsibilities for us.

This is a city wide problem and some organization must take over the project if it is to meet any kind of success. And it is a program that the ground work must be laid in the very near future if anything is to be done this summer.

We have a number of organizations, both civic and tax supported, that could handle this project if enough people will just get interested.

Some time back I received another letter that, while it is a little too long to print in full, it does have some rather good thoughts on the future of our space program. The letter is written by Benjamin Franklin Morrison III of Weatherford.

As he points out a number of people seem to think that we could do better by spending our money on cleaning up our ghettos, etc. rather than on the space program.

His contention is that the money spent on the space program is well spent and benefits a great number of people right here on earth. Both those working on the project, who might well be on the welfare program without the space program, and all of humanity.

In his letter he asks what would have happened if the same attitude had prevailed during the time of Christopher Columbus — where would we be today? He also points out

AT FHA BANQUET — Outstanding personalities at the Hamlin Future Homemakers of America Banquet held Monday evening are from left, Dwayne Hertel, FHA Beau; Pam Peace, Miss FHA; State Representative Frank Calhoun, speaker; and Mrs. J. O. Murphree, who was presented a life membership in the organization.

AT FHA BANQUET— Calhoun Challenges Youth To Consider Voting Duty

State Representative Frank Calhoun, speaker for the Future Homemakers of America Banquet Monday evening, challenged the young people assembled to consider the responsibilities of being of voting age at the age of 18.

He said "Many of you will reach the age of 18 in time to qualify to vote in the 1972 elections in which the people of Texas will choose a president; a vice president, a U. S. senator, a governor, a lieutenant governor and members of the state legislature. This and future elections will give you the opportunity to take part in the selection of our decision makers."

Speaking to the group on Pride and calling for a rebirth of pride — "in ourselves — in our state — and in our nation," he said, "I am not speaking of false pride, but the pride which

gave men the strength to build new nations and nations the determination to defend their land and provide for the security of their people.

He said, "We will not be able to take pride in our nation before we have pride in ourselves. Each individual should be proud of himself or herself, and that pride should give you the inspiration and strength to make your mark on the history of your time.

Rep. Calhoun, who carried the resolution to the House last spring that made Texas the 26th state to ratify an amendment to the U. S. Constitution to lower the voting age to 18 in all elections, closed his message with "I challenge you to join in our efforts to build a better world for all our people, and I fully expect you to accept my challenge.

Rep. Calhoun was named Abilene's Outstanding Young Man of 1968 by the Abilene Jaycees and is currently a member of the board of trustees of the Texas Tech Law School Foundation. In 1965 he served as president of the National Association of Texas Tech Ex-Students.

He has served three terms in the Texas Legislature and is currently seeking re-election to the House of Representatives.

Pam Peace, FHA president, was toastmistress. Sharee Reese gave the invocation.

During the special presentations, Miss Peace was named Miss FHA. Velanne Rowland made the presentation. Dwayne Hertel was announced as FHA Beau and honorary membership award was presented to Mrs. J. O. Murphree by Miss Peace.

Shelley Holtz gave the benediction.

Johnson Files For Re-election As Trustee

One person filed for the Hamlin Board of Trustees this week, according to Mrs. J. O. Murphree, secretary to the superintendent, who is in charge of the forms.

W. T. Johnson, president of the board, filed Tuesday afternoon for re-election.

Dr. M. L. Smith, local physician, has announced that he will not seek re-election to the board. He said that he felt that younger people who have children in school should make up the board.

Dr. Smith has served on the school board for 15 years and is a past president.

The third member whose term expires Apr. 1 is Ewell Mackey.

Deadline for filing is Mar. 2.

Junior Teams To Travel to Stamford Next

The three Hamlin Junior High basketball teams will travel to Stamford Monday evening to play the Stamford Junior High teams with the seventh grade boys game starting at 5:30.

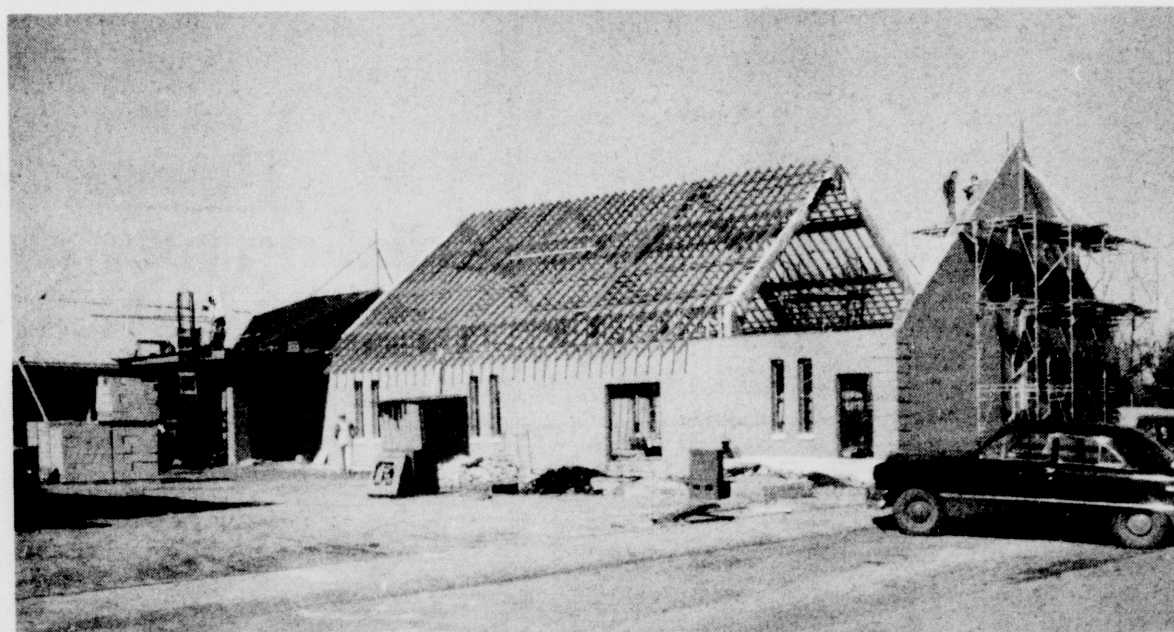

The scheduled game with Rotan here tonight (Thursday) has been postponed until Monday, Feb. 28, because of the high school play-off game with Merkel.

Playing here Monday evening the local teams dropped all three games to Anson.

The seventh grade boys lost, 30-24. Delbert Thompson was high for the locals with 14 points.

The eighth grade girls fell to the Anson girls, 25-16, with Elaine Carlton scoring seven points.

The eighth grade boys were defeated 39-33 with Daniel Willis scoring 11 points.

WORK PROGRESSES — Work on the \$125,000 sanctuary for First United Methodist Church is progressing nicely, despite some inclement weather since the work started. Each day the outline of the structure changes. This picture taken Monday shows the walls almost complete and the roof being attached to the educational building (the dark portion to the left). Completion of the building under contract to Burl Nash of Abilene is expected sometime around the middle of May.

Pipers-Badgers Meet Tonight for District

The Hamlin Pipers will meet the Merkel Badgers tonight (Thursday) in Rose Field House on the Hardin-Simmons University campus in Abilene to decide the District 7-AA basketball championship. The game will get underway at 7:30. The Badgers defeated the

March of Dimes Drive Here Nets Nearly \$1,000

Hamlin citizens have contributed \$978.09 to the March of Dimes through the various projects spearheaded by the local chairmen, Mr. and Mrs. Joe E. Ford.

The Mothers March of Dimes held Sunday afternoon with Mrs. John Ferguson Jr. as chairman, netted \$756.10. Volunteers from the women's organizations and high school girls participated.

The Saturday sale of balloons and sale of "Go MOD" stickers brought in \$112.06.

Contributions given by students and teachers at the schools amount to \$44.53 to date. Coffee Day last week added \$65.40 to the total.

Mr. Ford expressed thanks to all who have worked to make the campaign successful. Other donations will be taken, he said, if anyone wishes to contribute they may do so at Farmers and Merchants National Bank.

REV. HAROLD FLEMING
...resigns here

Rev. Fleming, Central Baptist Pastor, Resigns

Rev. Harold Fleming, pastor of Central Baptist Church here for almost three years, resigned that position Wednesday evening, Feb. 9.

Sunday will be his last day as pastor of the local church. Monday he and his family will move to eight miles south of Levelland where he will be pastor of Fellowship Baptist Church.

The Flemings moved here April 1, 1969, from Buffalo Gap where he had served as pastor of Buffalo Gap Baptist Church for three years.

While in Hamlin Rev. Fleming has served as president of Little League and the Ministerial Alliance and he was a member of the Board of Community Development. He also served as general chairman of the July area-wide revival last year and was publicity chairman for an earlier community-wide revival. He is in his second year as associational clerk for the West Central Baptist Association.

He was graduated from Hardin-Simmons University in August, 1971.

Rev. Fleming and his wife, Barbara, have two daughters, Diane, 12, and Deanna, 4. Mrs. Fleming served as the WPU president while in Hamlin.

Anson Tigers last Thursday, 73-59, in the first round of the district playoff. Coach Bobby King drew a bye for his team in the first round of the playoff to break the three-way tie for the district title. All three teams ended the regular play with 4-1 records for both rounds.

Tickets for the contest tonight can be purchased here at the high school office or may be purchased at the gate in Abilene. But student tickets will be available only at the high school for 50 cents. All tickets sold in Abilene will be \$1.00.

This will be the third meeting of the two teams this year with Hamlin coming out on top both times. The first time the Pipers won 67-63 and the second time they won 62-59.

The Badgers have the top two scorers in district competition with 6' 4" Kerry Thames and Billy Diltz. Thames scored 27

points in the first meeting between the two teams and 22 points in the second contest. He scored 34 points against Anson last week.

The winner of the match tonight will meet Coleman, District 8-AA Champions, in a game to be played Monday or Tuesday. The winner of that match will advance to Regional to be held in Lubbock Feb. 26.

In a warm-up game played here Friday, the Pipers defeated Mozelle 61-56 with Leonard Johnson scoring 23 points.

The Pipers lost to Hawley Tuesday evening in a warm-up game played at Hawley. The Bearcats jumped out to a 41-24 halftime lead and the Pipers were not able to catch up. Milton Jones scored 19 points for the Pipers with Leonard Johnson scoring 15 and Rick Rodgers 10.

Finalists Named In Midwest Electric Oratorical Contest

Names of eleven finalists in the Government In Action Youth Tour Oratorical contest Cooperative in Roby were named this week by Don Waddell, Member Service Director.

Winners of local contests, whose oratory on the subject, "A Youth Looks At The Destiny of Rural America", qualified them for final consideration by a committee of judges are: Robert Morgan and Audrey Carey of Roby; Dale Wiggins and Gale White of Ira; Barbara Tate and Mike Hinton of Snyder; Dale Paterson and Gail Glass of Hermleigh; Kenneth Shira and Velanne Rowland of Hamlin; and Hal Guinn of Hobbs.

The eleven young people will be interviewed on Monday, Feb. 21, at 7:30 p.m. in the Willie Wirehand Room at Midwest Electric Cooperative

in Roby by a judging panel consisting of the following persons: Homer Taylor, assistant manager of the Rolling Plains State Technical Institute at Sweetwater; Walter Grubbs, field representative for Congressman Omar Burleson of Abilene; and Mrs. Mary Graham, Womens Editor of the Texas Co-Op Power from Austin.

From the finalists, one boy and one girl will be selected as winners of an all expense paid trip to Washington D. C. with Texas Electric Cooperatives Youth Tour in June.

The final judging will be based on knowledge of subject, speaking ability, poise, personality, and appearance.

The youth group will travel to Washington by chartered buses. Participants will be chaperoned by six adult couples.

W. M. Holloway Announces Candidacy for Commissioner

W. M. (Willie) Holloway has authorized the Herald to announce his candidacy for Commissioner of Precinct 1, Jones County.

He has issued the following formal statement:

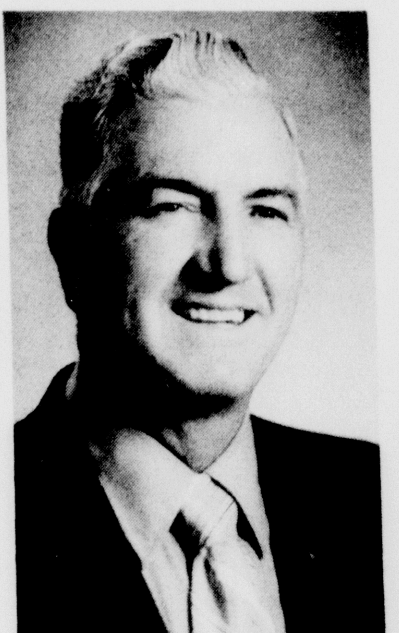

"To the Citizens of Precinct 1, Jones County, Texas. "During the next few weeks, I will try to see as many of you as possible, to personally solicit your vote for County Commissioner of Precinct 1.

"I feel that I have many friends and neighbors who know me, and are assured of my qualifications for the position which I seek. But for those who may not know me, I would like to take this opportunity to tell you something of my self.

"I was born in Grayson, County, near Sherman, Texas on October 17, 1917. I moved to Jones County with my parents, Mr. and Mrs. Mark Holloway, at the age of three and have resided here since.

"In 1936 I married Essie Pearl Burleson in Anson, Texas. We had five children of whom four are living. Mrs. Bobby (Wanda) Archer, Mark and Mike Holloway all of Tulsa, Texas and David of Stephenville, Texas. Mrs. Ray (Martha) Barber, deceased. We have seven adorable grandchildren. Two of these, Cherry and Angela Barber, children of our daughter Martha, who was killed in an automobile accident in 1968 are making their home with us.

"I have farmed and ranched all my life and have lived in this

W. M. HOLLOWAY

Precinct for the past twenty-two years. I am very familiar with the road problems that confront our communities. I have served on the Board of Trustees for the Anson Public Schools for twelve years.

"We all know that in recent years there have been many improvements in our road conditions, but there is still much that could be done.

"If I am elected, I plan to reduce my farming obligations and give ample time to my responsibilities of caring for your interests and spending your tax dollars wisely for the betterment of our society.

"Again I sincerely ask for your consideration and support when you go to the polls on May 6th."

Sincerely,
W. M. (Willie) Holloway

UT's Environmental Science Park

SMITHVILLE, Texas (Spl.)—The need to study and to understand man's interaction with his environment was the major impetus behind the creation of the newly established University of Texas System Environmental Science Park.

The idea of the park, which is located near Bastrop and Smithville in Central Texas, was originated almost eight years ago by Dr. R. Lee Clark, president of UT's M.D. Anderson Hospital and Tumor Institute at Houston, and interested Smithville citizens.

Two Divisions

Coordinator of planning for the science park, Dr. Joseph Patrick Kennedy, stated that Anderson Hospital is vitally interested in the park as a site for study of environmental carcinogenesis and health hazards.

The legislative bill to activate the park was signed by Governor Preston Smith in April, and \$100,000 for the

planning stages of the park was appropriated for the first year of the biennium. The bill allots administration of the park to MDAH, and permits the Houston institution to receive gifts and grants from outside sources.

Because of differing requirements and purposes, the park is separated in two divisions—the Camp Swift Division (the animal resource area) and the Buescher Division (an ecology study area) which is adjacent to Buescher State Park.

700 Acres of Land

Located on more than 700 acres of almost pristine forest land, the Buescher Division will be a unique center for persons of many disciplines who wish to investigate the natural flora and fauna and man's effect on them, and the problems of health and disease. For example, biologists might study the propensity of certain natural mouse populations to develop leukemia at a much later relative age than do

human beings.

Of great interest to Dr. Kennedy is the Human Impact Study. In order to determine the ecologic effect of human use on land, a preliminary comparison was made between the heavily visited Bastrop State Park (500,000 visitors a year) and nearby Buescher State Park, which receives about one fourth that number of visitors. The most notable finding so far is a change in the pH of the soil in the area of intensive use. Also, there is loss of underbrush and a scarcity of replacement seedlings. Heavy recreational use has compacted the soil, increasing water runoff and removing organic material.

Veterinary Resources

The Camp Swift Division is located about 10 miles from the Buescher Division park and will be used for veterinary resources. Preliminary plans for animal care facilities have been proposed by Prof. Richard Swallow and his associates in

the School of Architecture at The University of Texas at Austin. Land clearing, fencing, and grass planting are proceeding as planned.

On that property researchers will be able to produce specific animals and genetic lines for long periods of time. Most importantly, the high cost of maintaining animals on valuable urban land will be avoided.

Dr. Kennedy presently is involved in initiating research programs within the park, particularly those relating to environmental health. A small herd of cattle on the Camp Swift Division may serve MDAH as experimental animals with which to continue studies of ocular squamous cell carcinoma in cattle.

The potential uses of the UT System's Environmental Science Park are myriad and their realization depends upon the resourcefulness of those persons interested in creating a useful and innovative science park. So far, most of the major

Precautions Against Hog Cholera Given By Agent

Hog cholera, once on the brink of elimination from the state, has again gained a foothold — this time in South Texas. Fifty-four counties are now under state and federal quarantine. Since the costly disease can be transmitted easily, hog producers are urged to use all precautions so that the

disease will be curbed.

Texan colleges and universities and the various state agencies have contributed ideas for the long-range development of the park.

Already planned are laboratories for health science research, a library, and facilities for conferences and seminars. An interpretation center and a "think tank" facility might allow a multi-disciplined group to exchange ideas on common subjects. Special value will be placed on public environmental education. Tourists will be able to hear lectures and take field trips and thus become informed ecologically.

Another indication of the value and uniqueness of the Environmental Science Park is the interest shown by the World Health Organization in possibly establishing an environmental health monitoring station at the park.

"The issue of this decade is whether man can live in harmony with himself and with his environment, and we are dedicating our energies to develop a center for the study of man and environment that will be a singular asset to The University of Texas," said Dr. Kennedy.

To protect hogs from cholera, the agent lists these steps:

1. Buy pigs only from places you trust — bargain pigs may not be bargains after all.
2. Keep newly bought pigs away from other pigs for 30 days.
3. Do not mix your pigs with those of your neighbor.
4. Keep visitors out of the hog lot. Cholera can be tracked from one place to another on boots, shoes, clothing or vehicles.
5. After hauling hogs, clean and disinfect your truck or trailer.
6. Do not feed garbage or table scraps to hogs unless it has been properly cooked (30 minutes at 212 degrees F.). To be safer yet, avoid feeding garbage altogether.
7. Turn in any hog cholera vaccine that you may still have on your premises to a local state or federal animal health official.

Clayton emphasizes the importance of having sick hogs inspected by a veterinarian or a

"We are such stuff as dreams are made on.."

W. Shakespeare

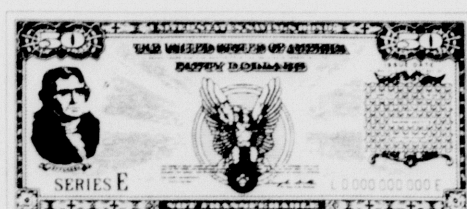

Life would be pretty dull if people couldn't dream. Take that boat you're always dreaming about. Just thinking about it makes you feel pretty good. But you won't just have to dream if you buy U.S. Savings Bonds. Because Bonds can make your dream boat a reality.

Now Bonds mature in less than six years. Which means maybe it won't take forever for your ship to come in.

Just knowing you've got the safety and security of U.S. Savings Bonds working for you can make dreaming for anything a lot more fun. Because, with Bonds, the good times and the good things can really happen.

So, don't give up dreaming. Just keep buying U.S. Savings Bonds—they're the stuff dreams are made of.

Now E Bonds pay 5 1/2% interest when held to maturity of 5 years, 10 months, 11 days. Bonds are replaced if lost, stolen, or destroyed. When needed they can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America.

Now Bonds mature in less than six years.

VALENTINE GIFTS DISTRIBUTED—Mrs. Jennie Flowers, seated, was one of the residents to receive Valentines and candy from members of the Blue Jay Blue Bird group of second graders. From left, are Judy Crouch, Connie Spalding, Tonya Brumley and Paula Gillilan. Leader of the group is Mrs. Charles Brumley. Mrs. Andy Bundas is assistant leader. The girls distributed candy and valentines to all the residents.

Favorite Recipes

by Barbara Craig

The recipe this week is one that has become a favorite at our home and I have had several friends ask for the recipe. The instructions may sound too detailed but really the recipe is relatively simple for homemade bread.

I use the mixer during the mixing of the ingredients until it is fairly stiff. Do not let the mixture start up on the beaters as this will put too much load on the mixer.

One thing I have discovered is that this mixture makes good rolls. Just roll out and cut with cutter and place in greased pan. Brush tops with melted shortening or turn in the shortening in the pan.

MONKEY BREAD

2 c. All Bran or Bran Buds
1½ c. shortening
1 c. sugar
Pour over this 2 c. boiling water. Stir until dissolved. Let stand until lukewarm.
Dissolve: 3 pkgs. yeast in 2 c. warm water
Beat: 4 eggs
Add: 4 t. salt
Mix all ingredients together. Blend with mixer at low speed. Gradually add:
6 c. flour then stir in:
7 c. more flour

TURN OUT about one-fourth of the dough on lightly floured board and knead lightly until smooth (about 1 min.).

Roll out into ¼" thickness, cut into 1 x 3" strips. (Pizza cutter is handy for this.) Dip each strip in warm melted margarine. Let drain a moment. Stack strips in pan. (Use 3¼ x 7¾ x 2¼, 4½ x 8½ x 2¼ or 9¼ x 5 x 3 pans) COVER and let rise for 1½ hours. Preheat oven and bake at 300 degrees for 10 min. then raise temperature to 400 degrees and bake 15 min. more until golden brown.
Makes 4 large loaves, or 8 small loaves.

Any remaining dough may be kept in refrigerator. Dough may also be prepared in pans and placed in refrigerator. Take from refrigerator about 3 to 3½ hours before baking — depending upon room temperature. Dough should rise until double in bulk.
Serve hot. Pull apart to serve. Loaves freeze nicely. Reheat in foil before serving.

NOTE: Recipe may be reduced to half. Use 2 packages yeast to ½ of the above recipe.

HARDEN MEMORIAL LIBRARY

Mrs. Rogers Honored With Shower Sat.

Mrs. Richard Rogers was honored with a shower of baby gifts Saturday afternoon in the home of Mrs. John Ferguson Jr. Hostesses with Mrs. Ferguson were Mrs. Gary Williams and Mrs. O. H. Weaver Jr.

Guests were served strawberry cake, nuts, coffee and tea. The centerpiece on the serving table was a pink African violet in an antique porcelain cache-pot.

An out-of-town guest was the honoree's sister-in-law, Mrs. George Blackburn Jr. of Lubbock.

SPRING STRIPES—Cotton seersucker goes cool and crisp in peppermint stripes shaped into fashion's new "little suit" look. A top-notch performer for spring.

OES to Host Dinner Tuesday

The members and their husbands of Hamlin Chapter No. 460, Order of the Eastern Star, will have as their guests the Masons of Hamlin Lodge No. 958, A. F. A. M., and their wives at a dinner Tuesday evening, Feb. 22, at 7:00 o'clock, in Hamlin High School Cafetorium.

Jaycee-ettes to Meet Tonight

The Hamlin Jaycee-ettes will meet in the home of Mrs. Marshall Waldon tonight (Thursday) at 7:30 for a business meeting.

Members are asked to bring recipes to be used in compiling a new cook book. The cookbooks will be sold at the annual Jaycee-ette Spring Fashion Show and Salad Supper to be held Thursday, Mar. 16, at 7 p.m. in the high school cafetorium.

Literary Club To Hear Mrs. Smith Friday

Mrs. A. J. Smith Jr. of Anson, president of Mesquite District, Texas Federation of Women's Clubs, will be the guest speaker at the Friday afternoon meeting of Woman's Literary Club in the home of Mrs. Arlie Cassle.

Mrs. L. H. McBride will be director for the 2 p.m. meeting. She will introduce Mrs. Smith, who will speak on "Think, Act and Talk."

Mrs. Earl Brown will give the invocation and Mrs. C. F. Cook will lead the club collect.

A social hour will follow the program.

B&PW Club Hears Program On Legal Rights

Business and Professional Women's Club met Feb. 8 in the home of Mrs. I. R. Witt for a program on Equal Rights presented by Miss Viola Avants.

Mrs. Earl Brown, president, presided. Miss Avants discussed laws which discriminate against women, stressing that only equal rights amendments to the Constitution can change the status quo. The equal rights amendments would also help men, she said.

The Jan. 25 business meeting was held in the home of Mrs. Luther Haught.

The Feb. 22 meeting will be a business meeting in the home of Mrs. Mac Reid.

Naomi Class Meets Feb. 8 With Mrs. Jones

Naomi Sunday School Class of First Baptist Church met Feb. 8 in the home of Mrs. Howard Jones for a business meeting and prayer service.

Attending were Mmes. S. L. Calhoun, W. W. Fletcher, LaFoy Patterson, Edward Gardner, Delmer Hill, W. W. Goodwin, W. O. Gray, H. S. Stovall, E. A. Hewitt, Joe A. Simpson, Robert Calhoun, Joe Hudspeth, Jack Collins, B. V. Newberry, Grady Smith, A. G. Smith, Louie Cunningham and Jones.

Mr. and Mrs. Hector Castillo of Rotan are parents of a boy, Hector Jr., 6 lb. 2 ozs., born Jan. 9 at 12:40 p.m.

Mr. and Mrs. William Zender Ingram Jr. are parents of a boy, Daniel Jackson, 5 lb. 12 ozs., born Jan. 13 at 6:30 a.m.

REBA CARTER
engagement announced

Reba Carter, Robert Bailey Plan Wedding

Mr. and Mrs. Horace L. Carter of Rotan announce the engagement of their daughter, Reba, to Robert F. Bailey.

Reba is a senior in Rotan High School and plans to enter Hardin-Simmons University in June.

Robert is the son of Mrs. Anita Franklin.

He is a junior in HSU and Minister of Music of the Central Baptist Church.

Wedding Hints . .

Planning a wedding? These tips on getting information to the Hamlin Herald office should be followed.

1. Two pictures of the bride will be used only if the engagement is announced six weeks prior to the wedding. A one column picture will be used with the engagement announcement and a two column picture will be used with the wedding.

2. Only black and white prints will be used. A billfold size for the engagement picture is adequate. A 5 x 7 or 8 x 10 is suitable for the wedding picture. Glossy prints are preferred.

3. Wedding information and picture should be turned in before the wedding or on Monday immediately following a wedding that occurs Wednesday through Sunday. Monday and Tuesday evening weddings should be reported no later than Monday. Information

that is to be sent to a daily publication should be in the Herald office one week prior to the wedding date.

4. Information and picture received three weeks after the event will not be published. A brief announcement of the wedding will be used after three weeks.

5. Wedding stories and pictures are used when either the bride or groom is a resident or former resident of Hamlin. Grandchildren of residents may choose either to have a picture with cutlines or a wedding story.

Information blanks for engagements, weddings and anniversaries are available at the Herald office.

Mrs. Hamrick Inducted Into Honor Society

Mrs. Terry Hamrick, the former Revonna Kay Robertson, daughter of Mr. and Mrs. Revis Robertson, was inducted into the Mu Theta Chapter of Sigma Tau Delta, National honor society for English majors on Monday afternoon, Feb. 7.

Mrs. Hamrick is a senior at the University of Texas at Arlington.

Mr. and Mrs. Juan Cruz of Anson are parents of a boy, Mathew, 8 lb., born Jan. 14 at 9:50 a.m.

Do you really want your brother-in-law to know how much you earned last year?

Of course not. It's nobody's business but your own.

However, annually millions of taxpayers bear this kind of personal information to people who really shouldn't know. For what? Just so they can save a few dollars doing their income tax.

That's some price to pay.

You see, for only a few dollars more than it costs to do it with any amateur who might not know that work clothes in some instances are deductible, or that income averaging might save tax dollars, you can have your tax return done by a specially trained member of the H & R Block team with complete confidentiality. There are thousands of them in over 6,000 conveniently located offices. H & R Block's fees start at \$5 and the average cost was under \$12.50 for the 7 million families we served last year.

Furthermore, if your return is audited we will accompany you, at no extra cost, to the Internal Revenue Service and explain how your return was prepared, even though we will not act as your legal representative.

This means that H & R Block is ready to offer you year 'round tax service for just one low fee a year, with no extra charge for audits and estimates. Yes, we cost a little bit more than your relatives or friends or neighbors but when you think of what we deliver, you can't afford anything less than H & R Block.

DON'T LET AN AMATEUR DO H&R BLOCK'S JOB.

H&R Block.
The income tax people.

FROM THE FILES . . .

FORTY-THREE YEARS AGO
(March 1, 1929)

The father and son banquet, which was sponsored by the Chamber of Commerce, was held Tuesday evening in the basement of the Methodist Church at seven thirty o'clock.

A meeting was held in the offices of the F & M National Bank Wednesday for purpose of considering plans for the proposed six story hotel. The building if erected will have every modern convenience and will cost more than \$150,000.

The building recently occupied by the Cecil Dry Goods Company is now undergoing some extensive improvements, new show windows, new front and new tile floor with other modern features will be added. When completed the building will be occupied by the Inzer Pharmacy.

Today, Mar. 1, brings to close the first six weeks period of the second semester of the Hamlin Public School. Examinations have been conducted in nearly all departments and report cards will be given to every pupil next Thursday.

Plans are being made by the Keifer Paterson Post No. 146 of the American Legion of this city to really line up according to the slogan of the organization to which we belong.

Bids for the construction of Hamlin's big lake, which will be located on the T-Diamond Ranch, will be advertised for about March 4.

TWENTY YEARS AGO
(February 15, 1952)

About 20 boys of the Hamlin chapter of Future Farmers of America were scheduled to leave Friday morning for San Antonio, where they will spend the weekend at the San Antonio Livestock Exposition. The group will return Sunday.

As the Herald prepared to go to press Thursday at noon the skies were overcast and prospects for a good rain were splendid. Monday and Tuesday experienced some old fashioned sandstorms that cut visibility in several occasions to about half a mile.

Hamlin Lions Club is new sponsor for Boy Scout Troop No. 43 in Hamlin, it was announced this week.

Hamlin City Council will probably take some action on the petition presented last week to the group calling for an election on the parking meters in the city limits, when the city governing body meets Tuesday night in regular monthly session.

Installation ceremonies for new officials of Ebenezer Lodge No. 1,000 and Princess Chapter No. 1, 106 jurisdiction of the most worshipful St. Joseph Grand Lodge A. F. & A. M. will be held at Oak Grove Baptist Church Sunday afternoon at 2:30 p.m.

Jones County 4-H members will be well represented in the Abilene District Fat Stock Show this year, according to Bill Lehmberg, county agricultural agent.

TEN YEARS AGO
(February 22, 1962)

Open House at the primary, elementary and junior high schools is scheduled to begin at 6:30 p.m. Mar. 6. The annual event is under the direction of the Hamlin Parent-Teachers Association.

The Hamlin eighth grade girls won the Junior High Conference Basketball Campship with a 7-1 record. This is the third time in the past four years that the girls have won the championship.

Ladies of Rotary will be honored at the annual Ladies Night banquet tonight (Thursday) at 7:30 p.m. in the primary school cafeteria. The speaker of the evening will be District Governor Briggs Todd of Abilene.

A check this week with the Hamlin Chapter of Future Farmers of America revealed that the active group numbers 72 with 68 being enrolled in classes. This is an increase of eight boys in the active group and 10 boys in the class over last year.

B. V. Newberry and Marvin Carlton, principals of the Hamlin High School and Hamlin Junior High School, respectively, will leave Thursday to attend the National Secondary Principals Convention to be held in St. Louis, Mo., Feb. 23-27.

NEWS AND VIEWS . . .
And What Have You
By BOB CRAIG

many of the benefits we have received from the program, such as the weather satellites.

He suggests that we should increase our space program rather than cut it back. He claims it would solve a number of our problems — such as cut down on our unemployed, give us more tax payers, give us more to look forward to and many others.

But the part I liked the best was his conclusion. He points out that the last moon shot cost each taxpayer \$4.50. We all got to watch it on television. Would you and everyone else pay \$4.50 or more to watch a football game, boxing match, rock festival, symphony orchestra, or some form of entertainment? Isn't walking on the moon much more unusual than any of those, and isn't it worth it if you consider the entertainment aspects of it only?

He urges everyone to think about the future of the program and then write their congressman.

TIPS FOR OUTDOORSMEN

by Vern Sanford

Fly fishing is often referred to as a lost art.

How could this be true when so many anglers have never found it? You can't lose something you don't have, any more than you can come back from some place you haven't been.

But those who don't fly fish sure miss a lot of fun.

Many an expert fisherman was brought up with a fly rod and reel in his hand. He knows the thrill that comes from popping a little bug on top of the water at a far distant spot, or dragging a fly across a quiet area in the lake, or the sudden tug of a trout as it tags that insect in a fast moving stream.

Fly fishing is an art. It takes time to master the technique, but it is a most rewarding outdoor pleasure.

Perhaps the reason why so few anglers are fly fishing today is development of the closed-face spinning reel. This device, which came into being in the late 40's has so simplified angling, and particularly the accuracy of artificial bait casting, that seldom do people try to master the art of fly fishing.

A beginner, with little or no experience and a very short period of training, soon becomes an adept angler with the spinning reel—especially the closed-face model. It

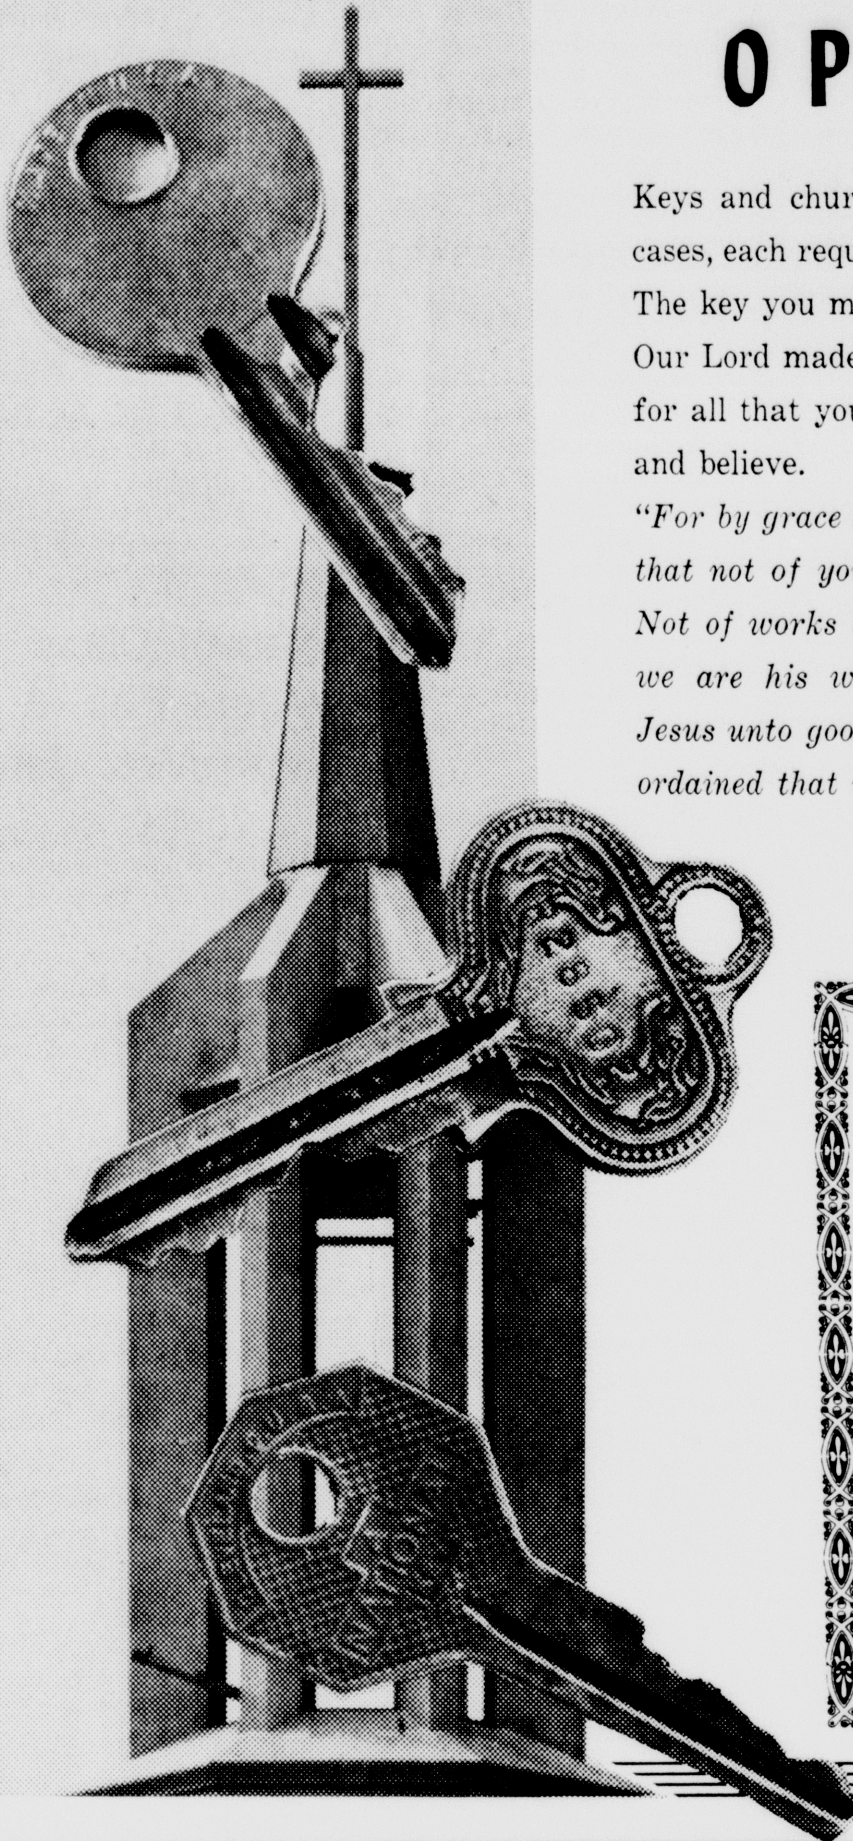

"birdnest" and casts easily and accurately.

The open-face, bail-type spinning reel (which came to this country from France in the 50's) did much to introduce thousands to the pleasure of angling. But because it virtually simplified everything the closed-face gear tempted many to give it a try.

Seasoned fresh-water fishermen who have learned by experience to properly handle the old standby—the spool-type bait-casting reel—are in most cases "the lunker landers." The reason is two-fold. They have the expertise, the experience and also the gear that is designed to handle the larger fresh water fish with ease.

If you are dubious as to what rig you might like best, start with the least complicated—the closed-face spinning reel. It's the easiest to master, possibly the cheapest to buy, and can be used for most everything from the tiny perch to a five or six pound bass—and even does a pretty good job of landing the little speckled trout and the small kings in the Gulf of Mexico.

One thing we would heartily recommend is—when you make your decision as to the outfit you want to learn to use—stick with it until you master it well. Don't try to learn them all at once. You'll find that very frustrating. Keep in mind the old saying "Jack of all trades and master

DOOR OPENERS

Keys and churches are door openers. In both cases, each require you to put forth some effort. The key you must insert in the lock and turn. Our Lord made the way to heaven even easier, for all that you have to do is present yourself and believe.

"For by grace are ye saved through faith; and that not of yourselves: it is the gift of God: Not of works lest any man should boast: For we are his workmanship, created in Christ Jesus unto good works, which God hath before ordained that we should walk in them."

EVERYONE IN THE CHURCH
THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

LEGAL NOTICE

THE STATE OF TEXAS TO ARTHUR ALEY SMITH. Respondent in the herein after styled and numbered cause:

You are hereby commanded to appear before the 104th District Court of Jones County, Texas, to be held at the Court-house of said County in the City of Anson, Jones County, Texas, at or before 10:00 o'clock a.m. of the first Monday after the expiration of 42 days from the date of issuance hereof; that is to say at or before 10:00 a.m. of Monday the 13th day of March, 1972, and answer the petition of Marie Simmons Long and D. M. Long, Petitioners in Cause No. 11,447 styled in the Matter of Marie Simmons Long and D. M. Long, in which Marie Simmons Long and D. M. Long are Petitioners and Arthur Aley Smith is Respondent, and the nature of which said suit is as follows:

That this is a petition for the adoption of Robert Christopher Smith, a minor.

If this citation is not served within ninety days of its issuance, it shall be returned unserved.

Witness, W. L. McDonald, Clerk of the 104th District Court of Jones County, Texas.

Given under my hand and seal of said court at office in the City of Anson, this 25th day of January, 1972.

W. L. McDonald Clerk of the 104th District court of Jones County, Texas

Tommy Phelps To Speak At Men's Rally

Tommy Phelps, Evangelist from Amarillo, will be the principle speaker at the Baptist Men's Rally to be held Thursday, Feb. 24, at Lueders Baptist Encampment.

Phelps was a professional wrestler for 17 1/2 years before being converted to Christ. Wrestled as "Nature Boy" with hair bleached blond. Wrestled in almost every major city in the U. S., plus several foreign countries.

Phelps surrendered to the

POLITICAL CALENDAR

The Hamlin Herald is authorized to make the following announcements for office in Jones County, subject to action of the Democratic primaries in 1972.

All political announcements, advertising and printing are cash in advance.

For Sheriff, Jones County — WOODROW (WOODY) SIMMONS (Re-election)

For Commissioner, Pct. 1, Jones County:

W. L. "BILL" MOORE BURNIA REID

W. L. (WILLIE) HOLLOWAY

For U. S. Representative, 17th Congressional District OMAR BURLESON (re-election)

NEWS FROM . . .

Old Glory

By Bernice D. White

Three 4-H Club members from Old Glory made a good showing with their hogs at the Stonewall County Livestock Show held in Aspermont last Friday and Saturday.

Tom Lee Rhoads won third place on his entry in the light weight Duroc division. Sixteen hogs were entered in this division. The hog was sold to Cliff Cholson.

Fourth place in the heavy weight crossbreed division went to Sherry Rhoads. Twenty-two hogs entered. The First National Bank of Aspermont bought this hog.

Sherry Rhoads also won 5th place in the heavy weight crossbreed division. The hog was sold to Wayne Thigpen.

The Old Glory Pirates who are still continuing with their record of no losses in District will play their last District game against O'Brien, Friday night, Feb. 18, in the O'Brien gym. The following games are scheduled provided that the Pirates win dist.: O. G. vs. Sands — Feb. 22 at the Aspermont gym. O. G. vs. Sands — Feb. 25 at the Howard Co. Coliseum, Big Spring.

Lt. Robert Bates of Hardin-Simmons ROTC spoke to the Old Glory students in grades 5-12 on Wednesday afternoon of last week. He showed an interesting film and gave pertinent information about the ROTC program.

Isaac Castro, sophomore of OGHHS, has entered the Stam-

Attended Southwestern Baptist Seminary from 1963-1966, graduated in January 1966 with a Diploma in Theology. Pastored Inspiration Point Baptist Church, Ft. Worth for two years.

Pastored Temple Baptist Church, Hereford, Texas 13 1/2 months.

Phelps entered full time evangelistic work in January 1967.

The program will begin at 6:00 p.m. with the evening meal and the program to begin at 7:00. All men and boys are urged to be present for this rally. Associations that will be presented are: Abilene, Callahan, Cisco, Sweetwater, Haskell-Knox and West Central.

Q. I help a woman with her cleaning and get paid \$15 a week. Does the lady I work for have the right to hold out social security contributions even if I don't want her to?

A. Yes. It's the law. If you earn at least \$50 in a 3-month quarter (January to March, April to June, etc.), she must report your wages for that period and send in the social security contributions. Social security cash benefits are paid from funds contributed by both the

Neinda Philosopher Comes Up With Notion to Cut World's Pollution In Half

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One comes up with some sort of a science fiction notion this week. Winter must be hanging heavy on him.

Dear editor:

It's not every day a man can think up an idea to eliminate 50 percent of the world's pollution, which is why I intend to take off the balance of the week just to rest up from it.

Now here's the thing. Everybody agrees that most of the air pollution is caused by automobiles, and air pollution is pollution in its worst form. You can drive by a polluted river or an eye-sore of a junk pile and survive, but if you can't get enough fresh air to breathe you're in for it.

All right. Look at the smog over any city in the world and you know it came mostly from automobile exhaust, and as hard as manufacturers may be trying, an exhaust-free car is not in sight yet.

The answer of course is an electric car, but before you

sneer "Huh, what's new about that?" let me say I don't mean an electric car that operates off a trunk and back seat full of batteries.

I mean an electric car that has electricity broadcast to it through the air.

If man can send a television picture in color from the moon to earth and can send a radio signal to a camera circling Mars and tell it when to turn on and off, why can't he figure out a way to send electricity from a tower to my car?

I know somebody's going to say, aw, electricity has to travel down a wire, you need a metal

Local Youth Takes Part In H-SU Project

Mike Brown, student at Hardin-Simmons University, was one of the 60 students who traveled to the Rio Grande Valley this past weekend.

Purpose of the trip was to pick oranges at the university-owned orchard Saturday near Mission. Sunday was spent taking part in church services in the area.

The group returned to Abilene about 1 a.m. Monday. The caravan of 70 was made up of students and staff members at H-SU.

The oranges will be given to persons making at least \$1 contribution or more to the library fund.

Exes returning to the campus for Homecoming this weekend will have an opportunity to make pledges to the library fund and receive a bag of oranges.

conductor. Won't work.

That's because people are hide-bound. They're talking about electricity that was invented 200 years ago and that they've been satisfied with ever since. It's amazing that electricity hasn't been improved on since it was first put in use.

What scientists ought to be working on is 20th century electricity, electricity you can broadcast through the air and turn the motors in the millions and millions of cars now pouring their gasoline fumes into the atmosphere. Just raise a small antenna in your car, tune in to the nearest electricity-broadcasting station and take off, silently and fumelessly.

Once this new electricity is perfected, the rest will be easy. You can't make me believe the power companies haven't got the ingenuity to develop a meter in your car that'll see that you're properly billed.

Yours faithfully, J. A.

To Show Stock

Two members of the Hamlin FFA Chapter will show entries in the Junior Division of the Houston Livestock Show and Rodeo. Those participating in the competition are Carlos Gonzalez and Oscar Guerra, both having entered barrows in the Junior Barrow division of the Swine Show.

Today's Young Couples Share Preparation for Parenthood

DR. CLARENCE J. YOUNG teaches young parents in Apple Valley, Calif., at childbirth education class co-sponsored by St. Mary's Hospital, the March of Dimes, and the Junior Women's Club.

by Ralph W. Gause, M.D.
Senior Medical Consultant
The National Foundation-
March of Dimes

It used to be that having a baby was a function reserved for women only. Nowadays, however, the father of the yet-to-be born baby is being invited to participate if not in the actual pregnancy, at least in the emotional atmosphere that surrounds it. One might speak of a "pregnant family." The more the father-to-be is let in on what the pregnant woman is going through, the stronger the marriage can be and the happier the baby when he becomes aware of his parents. According to Max Deutscher, a psychologist, "it is pregnancy which makes parents out of spouses and a

family out of a marriage." Pregnancy is a natural process, not an illness. In most cases, the common-sense rules that a doctor will lay down are all the "special treatment" that will be necessary. What matters most is that the parents see a doctor just as soon as the woman thinks she is going to have a baby. Prenatal care is critically important from the beginning because it is during the first 56 days that the embryological side of fetal development is completed. Early and regular medical attention can mean the difference between a healthy pregnancy and delivery or one marked by complications. Both parents should demonstrate a greater sense of re-

sponsibility than commonly practiced during pregnancy. They are the custodians of a future person and their awareness of the size of the task is essential.

Nutrition Vital

The future father isn't going to go through physical changes, but his wife's pregnancy certainly is an emotionally charged time for him. Pregnancy is nine months of growing a baby. It is also nine months of growing together, of learning to know each other in new roles. It is a trial run for parenthood.

A mother begins feeding—or underfeeding—her baby nine months before he is born. An expectant mother's diet is of particular importance. She must protect her own health to meet the nutritional needs of her developing child. Nutrition is a vital factor in helping to lower infant deaths and the serious problem of premature births.

Proper weight gain is necessary for a healthy pregnancy. Naturally, it should depend upon general health, height, age, build and normal weight. If a mother is quite thin when she becomes pregnant, she will need to gain more than a woman who is overweight. As for smoking, please cut it out—not just cut down. Out.

Nutrition and correct weight gain are always emphasized in prenatal care education programs sponsored by The National Foundation-March of Dimes.

An expectant mother's teeth may need extra attention. Gums have a tendency to bleed more at this time. She should make an appointment early in pregnancy and, above all, let the dentist know that she is pregnant.

Exercise is very important. Walking is the simplest form and available to all. There is a difference between walking for the fun of it and walking while working. Pregnancy is no time to take up a new sport. If a woman notices that her leg veins are enlarging, she should wear support stockings and put her feet up more often than a woman who is not troubled by varicose veins.

New Roles

Drugs of any kind, unless they are prescribed by a doctor, are to be avoided. A certain amount of constipation may be expected, and the best way to treat it is to eat plenty of roughage foods—fruits, vegetables, especially salads, and cereals. Use laxatives only on the doctor's recommendation.

In more and more hospitals, fathers are welcome in labor and delivery rooms, provided they have attended childbirth education classes with their wives. With this

From Mrs. Gibson—

Classes Learn About Moon Minerals

A discussion of minerals on the moon and on Antarctica was presented to the three physical science classes of Hamlin High School by Mrs. Everett Gibson, supervisor of Jones County Schools.

The classes under Ronnie Tiner, teacher, have been studying rocks and precious metals.

Mrs. Gibson explained that scientists have assumed that the moon contains all the basic elements found on earth and that moon rocks had not been oxidized because the moon has virtually no atmosphere.

Contrast was made on the expense of the space program which is 1.6 percent of the total budget, or roughly \$15.00 per

person per year. Americans spend per person: \$400 on health, education and welfare; \$400 on defense; \$35 on alcoholic beverages; \$17 on tobacco; and \$16 on cosmetics.

Tangible benefits derived from the space program were listed as reaching more than 3500 products that one might encounter each day. One of the more interesting objects named was a heart monitor so small that it can be inserted through a hypodermic needle rather than by surgery. On exhibit was a colorful necktie made of Beta Fabric (spun glass), hand painted by an artist who observed split moon rocks magnified through a pictomicrograph to 100 times their

size. The colorful hues of bluish-purple are segments of calcium and magnesium silicates; the yellow-pink colors are feldspar; and the black streaks in the tie are from iron, titanium, and oxygen. Yes, oxygen has been found in the moon rocks, but not in the atmosphere of the moon, Mrs. Gibson noted.

The Skylab and Space Shuttle were also discussed. The Skylab is a workshop with living quarters built into the third stage of a Saturn V rocket. The Space Shuttle will be used to assemble, repair and service a space station; even to launch new satellites and spacecrafts.

A question and answer session followed the illustrated discussion.

Rural American's Citizenship Workshop Set In Abilene Today

A radically new approach to "grass roots" involvement in the political process will be discussed in a meeting sponsored by Rural Americans. Texas Farmers Union is cooperating with Rural Americans in sponsoring a Rural American's Citizenship Activities Workshop.

Rural Americans is an educational project of National Farmers Union. The workshop will begin at 4:00 p.m., today, (Thursday) in the Barton's Cafeteria, River Oaks Shopping Center in Abilene. Registration fee will be \$1.00.

Blue Carstenson of Washington D. C., National Director of Farmers Union Citizenship Activities, will be in Abilene to conduct the workshop. Carstenson, commenting on the importance for such a workshop said, "Reforms have been made in both political parties which will directly affect each family and rural community as well as the state and nation."

Texas has approximately 1,490,000 young people who are eligible to vote for the first time. Voters must learn about the election laws which will affect Texas in 1972." Carstenson summed up the purpose of the workshop by stating, "An informed citizen is sure to get a piece of the action."

"Farm families and rural Americans are realizing the political necessity of becoming involved in the decision-making processes at the local precinct levels," states Texas Farmers

Union President Jay Naman. Naman said, "This workshop has been scheduled in order that the 'nuts and bolts' of political decision making can be explained to those who have such a vital stake in the political processes."

Billy Bob Toombs of Merkel, coordinating chairman for the workshop, states that the meeting is open to all interested citizens regardless of political party affiliation or occupation.

The workshop will begin at 4:00 p.m., recess for a group dinner for 6:00 — 7:00 p.m., and continue to 9:00 p.m. "The public is invited to all or any part of the workshop," said Toombs. Toombs commented, "Although the workshop is oriented toward rural people, all groups should find the workshop interesting because it deals with the political processes."

DRAFT LOTTERY CUT-OFF IS 200 — A temporary draft lottery cut-off number of 200 has been set for the 1972 first priority group.

Col. Melvin N. Glantz, state director of Selective Service, said the number is subject to downward revision as manpower needs change. Local boards were authorized to reclassify all draft registrants of the first priority group for 1972 with lottery numbers 201-365 in Class 1-H.

Cigarette tax revenue increased \$4.1 million — to \$19.9 million — from December, 1970 to December, 1971.

A new state bank charter is being sought at Wallis, Austin County.

Governor announced action to implement food stamp programs in Willacy and Cameron counties.

Texas is expected to get \$30.8 million in federal crime control funds for fiscal 1973, an increase of \$2.8 million.

Hamlin High Happenings

Piper Patter

by Jimmie Lou Bishop

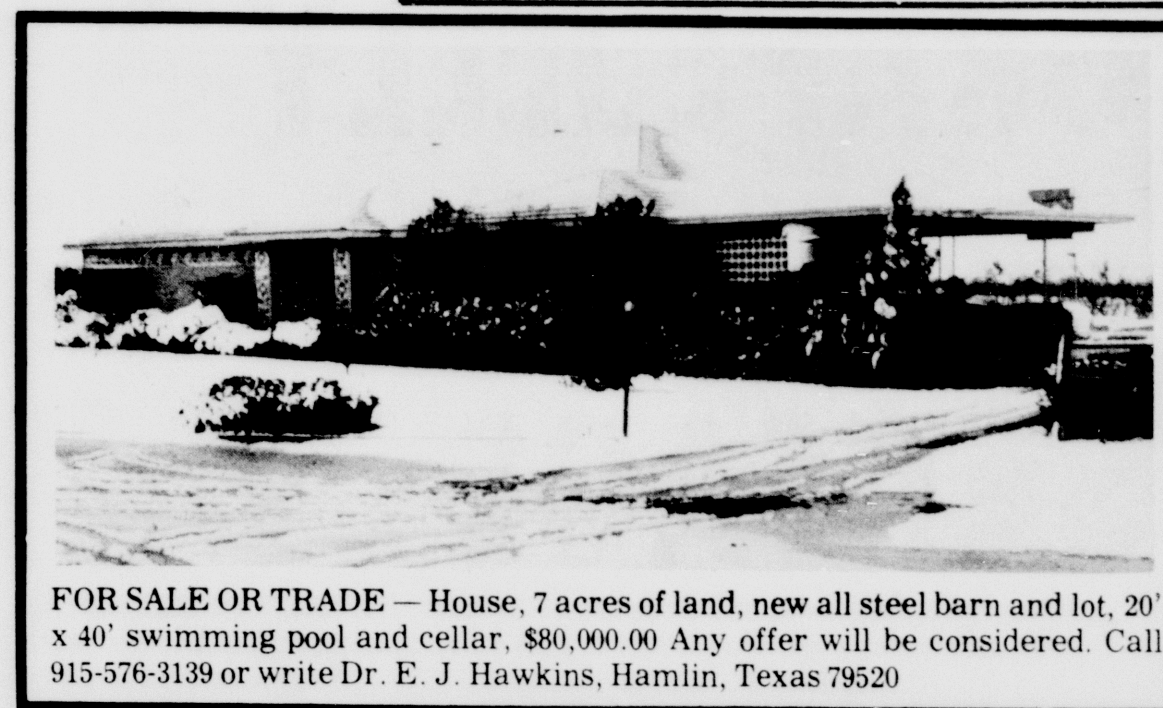

Excitement mounts at Hamlin High as the day for the district play-off grows near. The Pipers will meet the Merkel Badgers tonight (Thursday) night at Rose Field House on the Hardin Simmons campus in Abilene. The boys and Coach King have really worked hard for this opportunity, and they really need our backing.

The student council has declared the week of Feb. 14-20 twirp week. Now is the time for all the girls to get that date with a certain boy you have had your eye on.

The Student Council basketball tournament will be held next Tuesday, Thursday and Saturday.

The F.H.A. Beau night was held Monday February 14. Pam Peace and Dwayne Hertel were honored as Miss F.H.A. and F.H.A. Beau, respectively.

Remember to follow our basketball team to Abilene Thursday night and back them all the way to victory!! This is our first step toward the state championship title.

FOR SALE OR TRADE — House, 7 acres of land, new all steel barn and lot, 20' x 40' swimming pool and cellar, \$80,000.00 Any offer will be considered. Call 915-576-3139 or write Dr. E. J. Hawkins, Hamlin, Texas 79520

THE FASTEST GROWING IN THE BIG COUNTRY

Where thousands have come to utilize our personalized service to obtain a loan or to place their savings for safekeeping with interest.

Our incredible journey 5 1/2 miles beneath the surface of the earth.

We're going deep, deep, deep into the earth. 28,000 feet beneath the surface.

We're drilling a 5 1/2-mile-deep well at the Anadarko Basin in Oklahoma. We are pioneers in drilling for gas at this great depth.

This well is just part of our continuing search for natural gas. We're continuing our

search even though we already have an adequate supply to meet our customers' needs. We know we have a responsibility to look after the needs of the next generation.

What does this mean to you?

It means you'll have adequate gas energy for all your needs. It means we'll be able to operate at peak efficiency and keep your gas service reasonable. And we'll be able to support the growth of our

service area. This will mean more jobs and more money. And a better life for all of us.

You might say we're going to great depths to stretch your dollar.
